**Options:**

Any remaining pages/spreads to highlight the best of your work from this class. You may include hyperlinks, if you wish.

**Output:**

1. Bring your native InDesign files to class. Package the document so that links and fonts come with it. Load the fonts on your computer at school. I want to see the grid and Master Page elements in action, fonts intact.
2. PDF as *spreads*; check *include hyperlinks* box, if applicable. Post to CC.
